

STATE PILOT BRIEF

State education *learning pilot* — proposal.

A 90-day, evidence-first pilot to measure what students in a district actually retain — built on infrastructure already running at scale.

1 4 wk 90 d
DISTRICT PILOT TO DEPLOY TO MEASURE

Scope

- One state-curriculum core plus the regional/medium layer for the pilot district
- Role paths for teachers, block officers and the secretariat; multi-language (Hindi + English) AI study material
- Daily 10-minute adaptive practice on entry-level Android phones; works on 2G
- Per-school and per-district retention dashboard + decay forecast for the secretariat

Timeline

- 1 **Week 1 — Content build.** Syllabus ingested, knowledge graph auto-built, regional layer added.
- 2 **Week 2 — Configuration.** Role paths, district hierarchy, dashboards.
- 3 **Week 3 — Pilot launch.** Schools live, local-language verified, teachers onboarded.
- 4 **Week 4+ — Measure.** Retention vs baseline; decay monitoring begins.

Cost during pilot: absorbed by Future Proof. Success criteria co-defined in week one. Full data export, no lock-in, India data residency. hello@future-proof.app
